APPROVAL OF PETITION FOR VARIANCE
FOR: Petition for Variance COMM 5.94. (3) (b) 1.

The submittal described above has been reviewed for equivalency to applicable Wisconsin Administrative Codes and compliance with Wisconsin Statutes. The submittal has been **CONDITIONALLY APPROVED**. The owner, as defined in section 101.01(10), Wisconsin Statutes, is responsible for compliance with all conditions of this petition approval and other applicable code requirements.

Your Petition for Variance of code section(s) noted above has been reviewed.

The code section petitioned requires that a person applying for journeyman plumber-restricted appliance license examination shall have at least 1000 hours of experience as a registered learner-restricted appliance.

The variance requested is to recognize the 1000 hours of work experience and training the applicant received while under the mistaken impression that he was registered as a learner restricted-appliance.

The intent of the code section petitioned is that work experience obtained in the plumbing trade can only be recognized when the person is properly registered with the department.

The petitioner submitted the SB-9890 application form including 5 additional page(s) of supporting documents.

Reviewer's Comments: The applicant assumed he was properly registered with the department when the department processed the application fee for the credential. To his knowledge he did not receive a letter from the department requesting proof of high school graduation to enable registration as a learner restricted-appliance. The applicant had enrolled and completed the necessary educational coursed required for this program.

Departmental Action: **CONDITIONAL APPROVAL**

Conditions of Approval:

The following conditions shall be met during construction or installation and prior to occupancy or use:

- All of the petitioner's statements included on the variance application form, any other documents submitted to the Department, and all conditions of approval, if any, list below shall be carried out. This variance is specific to the subject petition and cannot be used for any additional modifications.

This decision will become final unless the department within 30 days from the date of this letter receives a written

Action Letter.rtf
